Dress Code for Mosaic

We understand that people have different perspectives and standards for what is modest in clothing. As you think about what clothes you are packing for the trip, we ask that you would keep this in mind and aim to be thoughtful and respectful of others. For bathing suits, we suggest shorts for guys and for girls a one piece or tankini (where top and bottom meet), and that when you are done swimming you consider putting on shorts and a shirt. For other clothing, we suggest a length that fully covers the bottom and stomach.

If there are any concerns while on the trip, our staff will look to have a conversation with you to work through it.
